

November 2020 Newsletter – Happy Thanksgiving!

Watertown Veterinary Clinic
300 Angel Ave SW – Box 327
Watertown, MN 55388
952-955-1525

Thank you for your continued patience!

We appreciate your continued support and understanding during this pandemic. We will keep doing our best to protect our staff and our valued clients, as we continue to provide excellent care for our patients. Service will be curbside until further notice. We ask that you continue to call us when you arrive and we will give you further instructions.

Wishing You a Safe and Happy Thanksgiving!

Thanksgiving is a special holiday that brings together family and friends. It can also carry some hazards for your pets. [Read this article](#) for tips to keep your pets safe during the holiday.

Not all Thanksgiving foods are harmful to your pets. [Click here](#) to learn about Thanksgiving treats you can share with your pets.

AVMF Veterinary Care Charitable Fund at Watertown Veterinary Clinic

Do you want to help pets less fortunate than your own? Would you like to help low-income senior citizens, veterans and those who've fallen on hard times afford care for their pets? [Click here](#) to donate to our fund. Your donation is tax-deductible.

Our care fund helps animals right in our own community. It can be used to care for animals who have been victims of neglect, abuse or abandonment, as well as those who have serious injuries and illnesses. The fund can help cover costs for people who might have to choose between feeding themselves and getting their pet care.

Ordering Your Pet's Medication Online - Buyer Beware

There are many options today when you look online for your pet's food and medications. What you may not know is that many online pharmacies can't purchase directly from veterinary manufacturers. The source and origin of their products is unknown to the consumer, which can pose a potential risk to your pet.

The products that online pharmacies sell could be counterfeit, meaning they have little to none of the active ingredients in them. They could be expired and repackaged or stored improperly leaving them less effective and potentially less safe. [Click here](#) to learn more.

Additionally, applicable manufacturer's guarantees and rebates apply to products purchased in-clinic and through a veterinary clinic's own online pharmacy. [Click here](#) to visit our online pharmacy.
