

Spring 2019 Newsletter

Watertown Veterinary Clinic
300 Angel Ave SW – Box 327
Watertown, MN 55388
952-955-1525

Puppy Party

Place: Watertown Veterinary Clinic

Date: April 23, 2019

Time: 6:00-7:00pm

Age: 8 weeks to 5 months old

Cost: FREE

Please RSVP by calling 952-955-1525 or emailing us at watvetclin@gmail.com.

Your puppy will have the opportunity to socialize with other puppies and new people! We will talk about training and any behavioral or health concerns you may have. Your puppy will also learn to be at ease in our veterinary clinic. Names of all participating puppies will be entered in a prize drawing! On hand to answer all of your puppy questions will be Dr. Scott Phearman, Certified Veterinary Technician, Brenda Schaffer and Groomer and Dog Trainer, Karen Gaffney.

Heartworm Disease: Cats Get it Too

The same mosquitoes that transmit the parasitic worms to dogs can transmit them to cats also. There are a lot of differences between heartworms in dogs and in cats, and sadly these differences often work to your cat's disadvantage. [Click to learn more.](#)

Obesity, Pets, and Nutrition

It has been estimated that up to 50% of dogs and cats in this country are overweight, or worse yet, obese. Though many would like to blame this on some obscure metabolic disorder, the fact is that obesity in our pets is a result of the same simple practice that leads to our own obesity- eating too much and exercising too little. [Click to learn more.](#)

Mosquitoes and Heartworm: An Increasing Threat to Your Dog

Several factors play a role in the continuing surge of Heartworm cases, and mosquitoes is one of them. Mosquitoes should not be considered as a summertime pest, but as a year round health hazard. [Click to learn more.](#)
